

set_essid

```
graph LR; A[set_essid] --> B[init_w req]; A --> C[socket_open];
```

The diagram consists of three rectangular boxes. On the left is a gray box labeled 'set_essid'. To its right and slightly higher is a white box labeled 'init_w req'. Below 'init_w req' and to the right of 'set_essid' is another white box labeled 'socket_open'. Two blue arrows originate from the right side of the 'set_essid' box. The top arrow points to the left side of the 'init_w req' box. The bottom arrow points to the left side of the 'socket_open' box.
